THE DAILY NEWS.

A DOWN EAST DUEL.

BY G. W. BRADBURY.

In a small country town in the Eastern section of the Union, there resided, some years since, a pair of rare harum-scarum fellows, who were the champions of their respective home factions, in any and in every game that could be started, from 'pitching coppers' up to celebrating the Fourth of July. If there was a game of ball, or a 'squirrel hunt,' or a 'wrestling match,' or any other affair where strength, skill, or agility could be brought into requisition, they were sure to have a prominent part in it, and to be pitted against each other generally. Things had passed on this way for many years, and neither was acknowledged to be the 'big dog of the tanyard.' Innumerable had been the trials of skill between them in almost every imaginable manner—sometimes one was victorious, sometimes the other. However, the honors were just about divided, for it was generally considered a settled point that while Sandy Mat, as he was called, could pitch quoits a little the best, was rather the superior of his antagonist at arm's length' wrestling, and could catch more and better trout than any one in the region; John Short was unquestionably ahead when it came to ball-playing, gunning, and running a foot race.

Thus stood matters, when one annual 'June training' day arrived. The spirit of rivalry was running pretty high, and John Short commenced boasting of his success in a shooting excursion the day previous. Sandy Mat was a little nettled by the indiscreet exultation of his rival, and at last exclaimed: 'You're 'tarnally jawing about your great shooting, John, but darn my skin if I don't think I could give you a pretty fair chase myself.'

'Oh, no doubt you'd make a great show,' replied John, with a broad laugh.

'Brag is a mighty good dog, but Holdfast is better,' said Sandy—'perhaps you would not mind betting your double barrel agin mine, that you can take more game between sunrise and sunset to-morrow than I can.' 'Perhaps I wouldnt—just try it.' 'Wal, it's a bet, then?' 'Just as you say.'

'I should like to put in a condition,' said John Short—'that we hunt together, and that we carry each other's game.' 'Hain't no objection on airth to that,' said the other; 'put it down in writing, so that there can be no mistake, or chance to back out.'

This was all agreed to, the requisite writings were made, and due preparations for the next day's work completed. At the first break of the morn, the two hunters, fully equipped for their labors, made their appearance at the appointed rendezvous, and after taking a social dram together, started off in fine spirits.

They had travelled about three miles without firing a shot, and were a considerable distance from any habitation, when they came across a fine calf, some three or

four months old. When within half a rod of this innocent wanderer, John Short raised his gun to his shoulder, and before his companion could suspect or imagine his intention, discharged its contents into the head of the poor beast, its maternal ancestor probably not being aware that it was out; it gave one bleat, tumbled over, kicked away for an instant with its hind legs in a peculiar and extremely significant manner, and meekly gave up the ghost.

'That's a d—d smart trick,' exclaimed Sandy Mat, 'what on airth did you want to do that for? old Hutchinson will kick up all all sorts of a fuss about it—he wouldnt have taken ten dollars cash for that calf.'

'Time enough to settle that when we get home,' said John, very quietly, loading the barrel which he had discharged. 'Bag that game and let's go on.'

'Bag what game?' 'That calf there.'

'You don't mean—'

'I don't mean anything but the agreement, Sandy, just look at the paper; you'll find that you are bound to carry home all I kill.'

'But it ain't fair.'

'That's to be agreed by others—but according to that paper, if you don't carry home all I kill, you loose the gun, you know.'

'Wal, this is a great business, however you shall never have a chance to say that I give in, so here goes.'

So, swinging the carcass across his shoulder, poor Sandy again started very demurely upon the excursion. After trudging along for half a mile or so, John took off towards the edge of the woods ostensibly for the purpose of looking for game, but really to take a hearty guffaw over the predicament of his worthy antagonist. It was scarcely five minutes after he had left his companion, still intending to keep him in sight, when he heard the discharge of both barrels in quick succession, and his name called in rather triumphant tones.

'John! Ho, John!'

John quickly cleared the bit of knoll between him and Sandy, and found the latter reloading his gun, and surveying, with singular complacency, the body of an old grey horse, just in his last agonies.

'I've put an end to this old fellow's existence, John; much, I guess, to his satisfaction—just naturally took him on the wing; he must have been tired of life about a dozen years ago—pretty fair shooting, wasn't it? Wal, he's done kicking,' said Sandy, again quietly shouldering the calf; 'pick up my game and let's go ahead.'

'You don't imagine that I'm going to undertake to carry that old horse, do ye?'

(Concluded to-morrow.)

DRESS OF MEXICAN WOMEN.—Gowns are not known. A chemise with short sleeves, and a short petticoat, with the Ribosa for the head, and sometimes folded over the bosom, is the entire outfit. It startles one frequently to hear the noble Castilian rolling from lips whence appearances would teach you to expect nothing but the harsh gutturals of our aborigines. Many of them are darker than our Indians, and the Abri-cas blood is plainly marked.

MEXICAN NEWS.—Santa Anna arrived at San Luis Potosi on the 8th Oct. He gave receipts and his individual bonds for the two millions specie raised by seizing a conducta. The Piennane trusts they will be satisfactory to English merchants, and be accepted as an earnest of the security of the money they loaned Mexico on mortgage of the Californians.

The U. S. mail stolen near Maria contained a letter from Secretary Marcy to General Taylor revealing the design upon Tampico and San Luis Potosi, and asking Taylor's opinion. This dispatch was in Santa Anna's hands. Ampudia wrote to S. A. that the suggestion of an armistice at Monterey came from the American officers. Santa Anna proclaims that 1500 Americans were killed!

The commotions in the city of Mexico previous to Oct. 14 by no means amounted to a revolution. The government papers attribute them to the intrigues of the monarchists.

An express arrived at Vera Cruz on the 21st ult., which announced that during the night of the 18th there was another alarm in the capital, similar to that of the 14th, which was soon quieted, however. We bitterly regret these commotions, says El Indicator, because, if they are continued, they will infallibly produce our ruin.

Réjón, minister of foreign and internal affairs, and Corlino, had both resigned.

MORE TROOPS.—The War Department has made requisition calling into service eight additional regiments of volunteers—one from each of the following States: Massachusetts, New York, Pennsylvania, Virginia, North Carolina, South Carolina, Louisiana, Mississippi, and one regiment of mounted men from Texas.

The steamer Perry has discontinued her Monday morning trips from Newport, and her Saturday night trips from Fall River.

The mail is to be carried from London to Liverpool, at the rate of forty-four miles an hour.

The Union states that the War Department has issued an enormous amount of munitions of war—not less than 16,000,000 of cartridges and siege guns, and over 6,000,000 Cartridges for small arms.

A correspondent of the London Morning Chronicle, is of opinion that in the Highlands and Islands of Scotland 50,000 families have to maintain themselves on less than 5s a week.

LANDS IN OHIO.—From a statement in the Cleveland Herald, it appears that the number of acres of land in Ohio is 23,271,432, the total value of which, as fixed by the 'Board of Equalization,' is 257,750,850 dollars—an average of 11 dollars and 12 cents.

PORK.—The Western (Mo.) Expositor says that Upper Mississippi will have a large surplus of Pork this year, of the finest quality, but, unfortunately, there is nobody to buy it. Some few engagements had been made for home consumption at \$2.25 per hundred pounds.

ARRIVAL OF THE ACADIA.

FOUR DAYS LATER FROM EUROPE.

The steamship Acadia arrived at Boston Tuesday morning, making a passage in twelve days and a half, and bringing four days later intelligence than that brought by the Great Western, which arrived at New York at 12 o'clock Monday night.

The price of grain has declined. There has been a decline of 2s. 6d. per barrel on United States and Canadian flour.

The government has determined not to open the ports for the free admission of grain.

No important political news. Mexican stock fell, on the arrival of the steamer Hibernia.

The Great Britain is still ashore, in spite of all efforts to get her off. The directors have held a meeting, and passed a series of resolutions, absolving Capt. Hosken from all blame.

It is said there will be a falling off in the consumption of cotton one third, the coming winter, on account of the state of the provision market, and a prospect of a reduction of operations in the manufacturing establishments.

Accounts from Hungary state that the price of grain has fallen there.

Advices from Ireland are not of a very consoling nature. Nearly all the clerks of the Repeal Association have been dismissed, and an adjournment is about to take place. Several deaths have occurred from starvation.

In France provisions are scarce, bread is high, and continues to increase in price. There has been a destructive flood in the west of France. On the 18th ult., at Tarrascan, the Rhine had risen twenty feet above its usual level. The magnificent bridge over the Loire, at Orleans, connecting the Orleans and Vierzon railroad, has been swept away by the violence of the flood. It cost 8,000,000 francs in the erection, and will delay the opening of that line for at least two years.

Nothing is more common in Germany than to get rid of ruthless characters, by persuading them to go to the United States. Considerable excitement has lately been occasioned at Hamburg, by the American Consul having detected the Government in trying to pass a number of convicts from one of their prisons.

The Hon. George Bancroft and lady arrived at Liverpool on the 25th.

THE DOCUMENTS ARRIVED.—It will be recollected that we published a rumor a few days ago, that Capt. Scofield, editor of the New London Morning Star, had had a large fortune bequeathed to him; and we are happy to learn from the Star of Monday, that it is not all rumor; for in that paper the Captain announces the arrival of the documents! This is very gratifying news to us, as well as to Capt. Scofield, for it will be recollected that he made us two very liberal offers, when he came in possession of this fortune; one of which was that he would fill a purse for us; and the other, that he would settle a life estate on us!—Now Captain, because you thought, when you made these promises, that possibly this rumor might be a mistake, don't go to backing out now, but just 'fork over,' as soon as you can settle up the estate. Are you going to do it?

The Government have chartered the ship Brutus to take out stores, &c., for this settlement in California, also to convey those persons belonging to Colonel Stevenson's Californian Regiment, who were left behind, by the sudden departure of the expedition; and the ship has sailed for the Pacific.

It is estimated that \$2,000,000 have been invested in the erection of new buildings in the city of Troy, N. Y., during the past season—to say nothing about other valuable improvements.

From the Boston Daily Star, of Feb. 10, 1846.

SOMETHING NEW.—No small excitement has existed among the nice young men, and the bald-pated old men, lately, in consequence of the advent of a new hair liquid—Bogle's Hyperion—which is said to be voted, by the knowing ones, the *ne plus ultra* of all hair improving inventions. We have received from Mr. Bogle a sample of this novelty, and feel very much disposed, even on so short an acquaintance, to fall into the tide of praise which is setting towards it. We have given our pate a soak, and after due repetition, shall be able to speak more definitely of this important matter. We believe it is first rate,—but you can decide for yourself, by calling on Mr. Bogle, and trying it.

CONSUMPTION.—There is, perhaps, no disease with which our country is afflicted, which sweeps off annually so many victims, as that fell destroyer of the human race—Consumption. Day after day, year after year, the insatiate monster hurries to the portals of the cold and silent tomb fresh added victims to its conquest. No walk of life is sacred from its blighting influence. No age is exempt from its death dealing shafts. The old, the middle-aged and the young, all alike, are food for this common enemy of mankind. The white-haired patriarch, whose life of temperance has rendered his system impervious to the attacks of other ills, and whose good deeds prepared him for the enjoyment of life's calm evening, finds consumption fastening its fangs upon his vitals, and tearing him from a world, ever bright to minds which took complacently on days well spent.

Is there no help for the afflicted? No preventive of the dangers which beset us in our changeable and fickle clime! We think there may be.—And if the allegations of those who are at least entitled to veracity, may be believed, there is a preventive and a remedy.

Wistar's Balsam of Wild Cherry is offered to a suffering world as such. It needs not the 'adventitious aid' of a long string of fictitious certificates to give it notoriety. Its true value and intrinsic excellence are sufficient to entitle it to the confidence of the public, and

"Wait on to fame" the name of its inventor, as a benefactor of his species.

None genuine, unless signed *I. Hulls* on the wrapper. Nov 15 1w.

Dr. Banning's Patent Body Lax, For Weakness of the Body.

The following letter is submitted to a discerning public, and the proprietor is enabled to refer to many individuals—whose testimony will satisfy the most incredulous. Be particular and get Banning's Lax, and be put off with nothing else.

WARREN, August 22, 1846.

Dr. Hoardman.—Dear Sir—Now being about leaving for home, I am able to give thus far a favorable account of the Lax which I have worn only four days. For more than four years I have suffered greatly from dyspepsia, that scourge of our race. My food has always been so troublesome that my stomach would reject it almost every day—my bowels always constipated—my head always feeling heavy and unpleasant, and my spirits greatly depressed. I was unfitted for any regular business, and till I saw you, I had given up the hope of ever being better. I had consulted many physicians and in Boston, those the most celebrated, and spent nearly all the money I could earn, upon them and medicines. Since I have worn the Lax, all these symptoms have in a great degree vanished, and now, it seems to me, I shall be well again. I find my body regaining its erect position—the spitting up my food is pretty much over, my spirits and energy are returning, and I feel like a new man.

NO better article for the effectual cure of the above, and all complaints of the Breast and Lungs was ever made, than that long known and justly celebrated remedy, called WHITWELL'S MEDICATED CANDY. CLOTHING. CLOTHING.

Large enough for the largest man, and small
enough for the smallest boy.
We warrant men a perfect fit.
That's not the most successful fit?
For with their matchlessness of cut,
For more celebrity we've got;
Small gain on one alone we reap,
But here's our motto—"we sell cheap."

OREGON CLOTHING WARE HOUSE,

Corner of Thames & Franklin Streets,
May be seen the largest and most splendid as-
sortment of Ready Made Clothing ever offered in the
town of Newport, at prices which cannot fail to
suit, and a little superior and cheaper, than at any
other similar establishment in the town. These
goods cannot be surpassed, if equalled, for neatness,
taste elegance, and durability. This well selected
stock was bought on the cash system, and cut and
will be sold cheap. Come now all ye, while the
doors are open unto you, and be clothed from the
crown of your head to the soles of your feet.

Among the above named articles may be found

Cloaks,
Which dignify the human form—
As beautiful as they are warm.

Pilot Coats.
They cost more nothing, and so stout,
It takes you years to wear them out.

Rever and Broadcloths.
They seem forever fresh and bright,
And give the wearer great delight.

Dress Coats.
Cut, pressed, and made in tasty manner—
They win the envy of the scanner.

Pantaloones.
Fine stitches, tightly drawn, and strong—
The reason why they last so long.

Vests and Scarfs.
There's nothing can adorn the breast
So well as can a handsome Vest,
But what's a Vest without a Scarf?
It's like a smile without a laugh;
It loses half its expression.

No man should think of such aggression.
Also may be found Collars, Bosoms, Shirts,
Handkerchiefs, Gloves, Suspenders, Hats, Caps,
Boots, Shoes, and all other articles generally worn
by the Male part of the community. Don't forget
the Oregon Clothing Ware House corner of Thames
and Franklin Streets.

Genuine Bear's Oil—Highly Perfumed.

—Perhaps our ladies
and fashionables are not aware
that three quarters of the Bear's
oil, (so called,) with which they
annoint their locks, wondering that it does them
so little good, is nothing in the world but hog's lard,
so highly scented as to escape detection, save on
close examination. This, however, is simply the
fact, and one that ought to be known. The only
safe way is to purchase your Bear's Oil of HENRY
JOHNSON, who gets it direct from Canada, and
the North Western territory, and who never sells an
ounce until he knows it to be genuine. The real
Bear's oil is a wonderful beautifier and strengthen-
er of the hair, and should be used by every one de-
sirous of beautiful locks.

Bogle's Hyperion Fluid; Or Vegetable Hair Composition.

THE subscriber has been induced to bring this
article before the public, at the request of his nu-
merous customers, among whom are physicians
and citizens of the first respectability, who have
adopted its use in their families, and wish others to
participate in its advantages.

The Hyperion is composed of vegetable ingredi-
ents, the secret of compounding and blending which
is known solely to the subscriber. It is an arti-
cle in which a cleansing and purifying wash is
beautifully blended with a most delicate, silky and
glossy moisture never before attained, yet free of
animal grease or essential oils. It clears the pores
of the skin, causes a healthy action in the blood
vessels, nerves, &c., which feed the hair, thereby
preventing BALDNESS AND GREY HAIR.

It entirely frees the skin from Scurf, Dandruff,
and other cutaneous diseases, disposes the hair to
curl, and changes the hardest hair into the most
soft, glossy, and healthy state, also imparts to it a
darker color, and the free use of it, both on the
skin and hair, in a most healthy and luxuriant
state until the latest period of life.

Ladies will find the Hyperion a great addition to
the toilet, both on account of its delicate and agree-
able perfume, and the great facilities it affords in
dressing the hair, which, when moist with the flu-
id, can be dressed in any required form, so as to
preserve its place, whether plain or in curls.—
When used on children's heads, it lays the founda-
tion of a good head of hair.

TO THE AFFLICTED.

DR. BANNING'S PATENT LACE.

An immediate Relief to Incipient Consumption, the Inflammation of the Lungs, Spinal Weakness, Piles, Protrusion, and Diseases of Women, without Medicines.

THIS instrument has been examined by Drs. Mott, Rodgers, Francis, and Griscom of New York, the faculty of Pittsburgh, Hartford, New Haven and Middletown; and has obtained for itself their favorable testimony. The following will show what kind of testimony might be produced in many cases:

Middletown, June, 25th, 1843.

Dr. Boardman,

Sir—In answer to your inquiry respecting my case, I will merely say, that I have been sick since I strained my breast and loins in May, 1836, from that time continued to grow worse, when in the fall of '39, I abandoned business, and have not done any thing since. I suppose from all I could learn about my case—frequently raising blood, coughing very hard and expectorating profusely, deriving no benefit from my physicians, and all medicines recommended to me, that my case was hopeless. Last winter my brother told me he had heard a good account of Dr. Banning's Lace in such cases, and was anxious that I should try it; accordingly I procured one from you, and since I began to wear it, my breathing, which was very short and laborious, has become easy and natural; the pain and fluttering or palpitation of the heart has subsided; cough and expectoration greatly lessened, my limbs which were exceedingly painful have become useful, so that I can walk comfortably. I am able to shave myself with comfort, which for many years I have not been able to do. The piles, which have troubled me for nine years, are nearly eradicated. I work some in the garden, and am able to ride 4 miles at once with pleasure and benefit. Yours, &c. WM. RANNEY.

Dr. G. M. Boardman,

Middletown, June 25, 1843.

Dr. Boardman,

Dear Sir—In answer to your inquiries respecting the effect of Dr. Banning's Lace in the case of my wife, I will state that forty-two years past, she has been afflicted with a complication of complaints to which females are subject. She has tried all the physicians and all the medicines recommended for such complaints, without regard to expense, and found only temporary relief. Her most distressing complaints, palpitation of the heart, oppression and a sense of great weight at the pit of the stomach, prolapsus of the womb, &c., were believed after wearing the lace two hours, and she has continued to improve daily. With this view of the case I cannot use language strong enough to convey my approval of the instrument. aug. 29th.

PROVINCETOWN, Feb. 25, 1846.

Doctor Boardman,—Dear Sir—I now take my pen to inform you that my wife's health has improved very fast for the last two weeks from wearing one of your Laces. She has been out of health about two years and has worn a different Supporter from yours, which had only two pads. She received some benefit from that—but it would not produce a cure. But now I can say with pleasure that she is as smart as any of the young girls in the neighborhood. She can now run up and down stairs as fast as I can, and I feel so well pleased with it that I hardly know how or what to write. But one thing I do now, that she has been under the care of seven Doctors in one year—and wearing your Lace two weeks has or will do the cure in a very short time. I want to write more, but I have no time. I am truly, your friend and well wisher, J. * * *

Glove Anodyne Toothache Drops.

The best of all Toothache remedies. It is immediate and certain in its effects, curing the most violent toothache, or pain in the gums in ten minutes.

Experience has proved that this Anodyne composition will give immediate and permanent relief, after the failure of every other remedy; it is pleasant to the taste and smell; will not injure the teeth or gums in any way, and a few applications will entirely renovate the pain and soreness from a decayed tooth, so that it may be filled and rendered useful as ever. When the pain proceeds from the face or gums around a tooth apparently sound, this application will give speedy relief, by rubbing a few drops to the part affected. Price 25 cent. From the Brooklyn Daily Advertiser.

A BEAUTIFUL YOUNG LADY residing in W. street in this city, has received great and unexpected benefit from the use of that excellent specific RADWAY'S CHINESE MEDICATED SOAP. Some few weeks since she was on a visit to some of her relatives in South New Jersey, where she was very severely bitten by mosquitoes, being at the same time very much exposed to the scorching rays of the Sun, she experienced great pain, and irritation from the effects of the mosquito, and much annoyance from the unnatural darkening of her tanned complexion. We recommended her to use that excellent Medicated Compound, RADWAY'S CHINESE MEDICATED SOAP, she complied with our request, and in three days there was not a single spot, blemish, pimple or blotch left upon her skin, and her complexion is now as fair as the lily.

Ladies, secure without delay a cake of this estimable Soap, it will purify your skin, improve your complexion and remove all disfigurements entirely from the surface of your system. Price 12-12 cent- per cake. Sold in Newport by R. J. TAYLOR, Agent. Aug 7

LORRAINE'S PILLS.

DR. LORRAINE'S CURATIVE SYSTEM

OF MEDICINE is rapidly producing achievements never before known in the cure of diseases. The immensity of its wonderful results, alone demonstrate that its principles must be founded on truth. The relative proportion of Cures by this Medicine is out of all proportion greater, than by any other Medicine known.

THE THEORY is, that one blood beats in the bosom, and flows through the body of every man, and must be pure, it is the Vital Principle that sustains life.

Physicians, and people of every class are willing to come forward and announce, in the most public manner, that they have been cured of long standing complaints—after another medicines had failed, in fact there can be no doubt but that Lorraine's vegetable Pill is the best medicine ever offered to the public.

See a few public statements of men of truth and virtue.

Lynn, Dec. 17th, 1843

Sir: I have sold all the pills I had had of you, please send another lot immediately. The sale of Lorraine's vegetable Pills is rapidly on the increase, they are becoming very popular. I sell more and more every day. As a curative medicine and purifier of the blood, I think they stand unrivalled. One fact I have noticed, that no one that has used them finds any fault with them; they have wrought some very great cures. One lady, who has been confined to the house and bed, a great part of the time, for twenty years, is now cured and able to work most of her time, after having taken 3 boxes only of Lorraine's Pills! I might name many other cases where the cures have been as great, but have not time. Yours respectfully, J. E. P. MARSH.

Portland, Me., Nov. 7th, 1843.

Sir: Please send us one gross of Lorraine's Pills, we have sold all we had last. They have given very good satisfaction, better than any other pills which we have in our market. I think in a short time they will take the place of others. We have had no fault found with them whatever; but, on the contrary, they have been praised loudly. I think we could have quite a number of highly respectable certificates from our citizens. Yours respectfully, E. MASON.

Chick, Jan. 3d, 1844.

Sir: I transmit to you an account of my case for publication, believing it to be my duty. I have been confined with the Rheumatism nearly the whole winter, have had some of the best physicians of Boston and could get nothing that would relieve me more than temporarily. I heard of the wonderful virtue of Lorraine's Pills, I had no faith whatever, but I took them, and it is a solemn fact that when I had taken but eight pills my Rheumatism had entirely left me, and I have remained well ever since.

N. B. I never took more than one pill at a time and that on going to bed.

Yours respectfully, W. M. HALSTAL.

OPINION OF A SKILLFUL PHYSICIAN.

Sir, the operation of Lorraine's Pills is, past any philosophy to find out, how so small a Pill can produce such wonderful effects. I find that one of them will operate more than 3 or 4 of any other Pill, yet in their operation, mild, gentle, and comforting. On this account, they are more than 100 per cent, cheaper, as physis, than any other Medicine I know of.

These Pills are now acknowledged by thousands who take them daily, to be the only medicine that fairly takes the Banner from all others. This extraordinary medicine has actually done wonders within one year past. They cause no pain or uneasiness of any kind in their operation, and require neither change of diet or care of any kind.

The attention of the reader is respectfully called to the important results from the use of these Pills. It will be seen, however great achievements have heretofore been made by the use of this invaluable medicine, still greater and more remarkable cures daily happen.

THE subscribers respectfully inform the public, that they are in constant attendance as Pilots on this Coast and Bay, and by their long experience in the profession, which is well known to merchants and mariners, gives them advantage over those persons who have lately intruded themselves into the profession, without practical experience or skill, and are constantly endangering the lives and property entrusted to their management.

We trust that this notice will be suitably appreciated by all masters and owners of vessels, who have a due regard to their own interest and security.

It is now about ten years since this medicine has been introduced to the public, and it stands unrivalled in its effects; bearing the test of the severe scrutiny of all classes, both friendly and unfriendly. It is but for one purpose;—for the use of Mothers who have to pass through a sea of affliction in giving birth to mankind, not to be described. It is to you we make an appeal. It is for your especial and general good that you should make use of one bottle of the MOTHER'S RELIEF before confinement. Then you can approach the parturient chamber without feeling as if you were going to the chamber of death. You may rest assured it will still all ferberic and nervous affection. It soothes and shields from irritation and by its peculiar properties it destroys the cause of hemorrhage or inflammation that so often attend and follow the hour of parturition. It causes sweet and natural rest, and at last facilitates the birth, so that Mothers have not to pass through such excruciating pain and distress. The Mother's Relief may be depended upon in all cases of threatened abortion where it is possible to be prevented in cases of Spasms, &c., causing frequent alarm, from two to three doses will give immediate relief.

As the subject is one that cannot with propriety be fully discussed in this public manner, we invite all who feel interested to call on our agents (most of the respectable Druggists in the United States,) or on the manufacturer, and they will be furnished with a pamphlet in which they will find all the facts to form a correct opinion of its merits, and also the opinions of many physicians of eminence, and of persons who have become acquainted with its beneficial effects.

CAUTION TO PURCHASERS.—Ask for BARTHOLOMEW'S Mother's Relief.

None is genuine unless our signatures are found within the wreath of the direction that is pasted on the bottle, signed with our own hand, and over the neck of the bottle is a facsimile of our own hand writing also. By attending to the above directions, no one need be imposed upon. All orders will be promptly attended to.
